"PINK RADIANCE"

Our Best Named Gloryglads

FOR many years Rose Hill Gloryglads have been famous all over the United States. "Gloryglads" is a trade name used to distinguish our Modern Gladiolus from the ordinary kind generally offered. Bulbs are very much like human beings, if they receive the proper care and attention during their stages of development from the tiny bulblets to the big fat, husky, high crowned bulbs we offer you in this list they give you much pleasure and enjoyment, while bulblets that are allowed to develop without such care and attention are likely to prove very disappointing to the purchaser, no matter what price is paid for the bulbs. **PLAY SAFE THIS YEAR**, buy genuine GLORYGLADS, get the best bulbs obtainable. Our Gloryglads are just bursting with vitality, sure to grow and bloom for your pleasure. Direct from the grower to you. Every flower garden has room for more gladiolus.

They are without question the most popular and best of all cut flowers. Modern growing methods in our great bulb nurseries have produced "Rose Hill" Modern Gladiolus, that stand four to five feet tall, with enormous spikes of flowers that start to open at the base of the spike, and continue to bloom for as long as two weeks until the tip bud is reached, either in the garden or cut in a vase of water, and have made this glorious modern flower unequalled for the summer and fall garden.

We Sell 25 or 50 Bulbs at the Hundred Rate, Except Where Noted. Bulbs of Named Kinds Average about 2 inches in Diameter. All Postpaid to You.

"GIANT NYMPH"

Directions for Planting Gladiolus

Gladiolus may be planted as soon as danger from freezing is past, usually this is about April 1 in the vicinity of Philadelphia. Their culture is very simple. They will grow and bloom in almost any soil or situation, but they, like most other flowers, like a rich black soil, enriched with some well rotted manure and bonemeal, and amply repay the grower for this trouble, in the giant blooms they will produce under ideal conditions. Do not let the manure come in contact with the bulbs, however, as this will cause the bulb to rot or form disease. They should be set quite deeply, about 6 inches in a light loose soil, and 4 inches in the heavier clay soils. Deep planting eliminates the necessity of staking the plants, and also enables the roots to get down into cool, moist soil, which is helpful in hot dry weather. Do not plant closer than 3 to 4 inches. Double this space is better.

SOUVENIR: Rich golden yellow flowers which are produced in great profusion. Single bulbs produce two or more spikes very frequently. One of the best yellows. 4 for 25c; Dozen 60c; 100 for \$4.40.

BETTY NUTHALL: A brand new variety, very rare yet, but one of the outstanding new giant varieties, with large, well formed, pink blooms, with a touch of cream in throat. One of the best. 25c each; 3 for 70c; Dozen \$2.35.

CAPT. BOYNTON: Rare lavender shade spotted with deeper lavender. Another fine large flowering variety, and a recent introduction. 3 for 29c; Dozen 95c; 100 for \$6.90.

COPPER BRONZE: This odd variety is correctly named indeed. Color is a bright copper-bronze. Should be in every collection as it attracts great attention. 3 for 30c; Dozen \$1; 100 for \$6.90.

DR. F. E. BENNETT: Here is one of the recent new color sensations. Just think, imagine if you please, a peach-red, overlaid with flaming scarlet, it is simply wonderful and striking. 3 for 29c, Dozen \$1; 100 for \$6.90.

GIANT NYMPH: A giant variety, color light rose pink, and a delicate yellow-cream throat. Be sure to plant this variety this season. You will be delighted with it. 4 for 25c; Dozen 75c; 100 for \$5.25. One of our favorites.

GOLDEN DREAM: A new clear golden yellow with flowers of good size. Color is simply marvelous, fine straight spikes. 3 for 40c; Dozen \$1.25; 100 for \$8.90.

MRS. LEON DOUGLAS: One of the outstanding recent introductions. Always the hit of the glad garden. Magnificent giant blooms on long heavy spikes. Color of flowers, bright rose striped with soft orange scarlet, texture velvety. 3 for 29c; Dozen \$1; 100 for \$6.90.

MRS. F. C. HORNBERGER: Wonderful giant exhibition white glad, a new and coming white far superior to all other pure white glads on the market. Ideal for planting on graves as a memorial flower. 20c each; 3 for 49c; Dozen \$1.75.

GERALDINE FARRAR: This is now considered one of the most satisfactory of the new blue introductions of recent years. A strong grower, large spikes of the coveted blue flowers. 29c each; 3 for 69c; Dozen \$2.25.

HEAVENLY BLUE: Introduced last year at the shows, this variety made a hit. It is a delicate and exquisite shade of clear sky blue, nothing else in the gladiolus world like it. It has not yet been grown generally, so here is a chance to be the first to grow this rare glad in your locality. 35c each; 3 for \$1; Dozen for \$3.50. Be sure to try this one.

MRS. VON KONYNENBURG: A new light blue flower, very rare, forming tall spikes of clear blue color. We never have enough blue gladiolus, so be sure to try at least a few of this new variety. Large bulbs 25c each; 3 for 65c; Dozen \$2.00.

THE ORCHID: So called because of its resemblance to the fine rare orchids now being grown. It is light lavender color, flecked with lavender pink, long, narrow, ruffled and lacinated petals, a rare new variety that will meet with great acclaim, as soon as it is more generally known. 3 for 29c; Dozen \$1.09; 100 for \$8.39. Be the first to introduce this variety in your locality. Very delicate.

PFITZER'S TRIUMPH: This brand new introduction is unquestionably the largest and finest gladiolus ever produced. Enormous flowers on a tall growing spike, color a bright flaming salmon with a bright contrasting cherry red blotch. Our supply is limited, not more than one dozen to a customer. 25c each; 3 for 70c; Dozen \$2.29.

W. H. PHIPPS: One of the outstanding new varieties, novel because often the flower spikes will open up all at the same time, a single spike making a bouquet in itself. LaFrance pink blooms, striped with salmon-pink. You should include a few of these in this year's planting, they are very fine. 3 for 29c; Dozen \$1; 100 for \$6.75.

ROSE ASH: One of the popular cut flower novelties, color light rose suffused with glowing gray, blue and yellow in a gorgeous combination. 4 for 27c; Dozen 75c; 100 for \$5.49.

1910 ROSE: Charming large flowering glad, with bright rose pink blooms. One of the best and greatly admired at all the shows. A real exhibition flower, not new but always popular. 3 for 19c; Dozen 60c; 100 for \$3.49.

CHICAGO WHITE: A fine early white gladiolus, excellent for cut flowers. Individual flowers large and a strong grower. 12 for 80c; 100 for \$5.50.

DR. VAN FLEET: A very early, extra tall growing gladiolus, flowers are of remarkable form, color a delicate rose pink, deeper at edges, and overlaid in the throat with soft creamy yellow. Highly recommended. 12 for 85c; 100 for \$5.75.

LOS ANGELES: The cut and come again glad. Several spikes from a single bulb. Salmon pink, large, and flowers early. 12 for 80c; 100 for \$5.50.

BENGAL TIGER: A new novelty, tiger color, stripes and all. Orange to copper color, vividly striped, large flower spikes, very fine. \$1 per dozen, \$7 per 100.

MRS. P. W. SISSON: Best light pink grown. Pure Cameo shade. Exquisitely ruffled and crimped. A blue ribbon winner. \$1.10 per dozen. \$7.50 per 100.

ODIN: Very early, salmon color with a dark blotch in throat. Wins a second look. Try it. 12 for 85c; 100 for \$5.75.
